

KÄSE REBELLEN

Käse Rebellen awarded Gold and Silver

17 November 2010

Quality of Käse Rebellen cheese specialities confirmed at “Käsiade” 2010

Gold for the
Royal Rebel Cheese

The International competition “Käsiade” is organised by the international federation of cheese and dairy experts every two years. This year, 120 companies from eight countries participated in the competition. A jury of 27 experts assessed the participating 302 cheeses based on taste, texture and outward appearance of the rind.

The Royal Rebel Cheese was awarded a gold medal in the category “ semi-hard cheese with high fat content”. In addition, the Pepper Rebel Cheese received a silver medal in the category “cheese with savoury additives”.

The fact that two products of Käse Rebellen fulfilled the jury’s strict prerequisites and achieved outstanding results, confirms once more the extraordinary quality of Käse Rebellen cheeses. These awards will be an incentive for the Rebels to stay true to their principle of only producing cheese of the highest quality and extraordinary taste.

Silver
for the
Pepper Rebel
Cheese
